

## KONGSBERG MARITIME

# AN OCEAN OF OPPORTUNITIES

### KEY FIGURES 2017

3,819  
employees

58 offices in  
20 countries

Revenues  
7,429

Kongsberg Maritime (KM) is a world-leader in the development and delivery of integrated vessel concepts for traditional merchant vessels and fishing vessels, as well as offshore and research vessels and offshore installations. KM supplies products and systems for advanced mapping surveying, sonars, underwater communication, marine robotics (Unmanned Surface Vessel [USV] and Autonomous Underwater Vehicle [AUV]) and underwater cameras for, among other things, research, fishing and defence vessels, as well as aquaculture installations.

#### Offshore

Our offshore product and solution portfolio position KM as a market leader in advanced dynamic positioning technology, and offers a well-established and highly regarded range of integrated navigation and automation solutions.

#### Seaborne Transportation

To the merchant marine and passenger market KM delivers systems for integrated marine automation and navigation, cargo management and level sensors, temperature sensors and pressure transmitters.

#### Subsea

Our subsea technology is applied predominantly in the offshore, oil and gas, surveying (seabed mapping, surveying and investigations), defence, fisheries & aquaculture, subsea construction and oceanography industries.

#### Emerging Business

Always at the forefront of new technologies and applications, we are dedicated to supporting important emerging growth markets in maritime and offshore industry such as autonomy, satellite positioning, hybrid solutions and on-deck handling equipment.
